

# NATURE GIRL®

Nature Girl has been popping up in all the right places just lately – for those of you based in the UK you can't fail to have spotted Nature Girl products in both Marie Claire and Red magazine recently.

Nature Girl Organic Hipster was featured in the July issue of Red magazine – where it was described, quite rightly, as “deliciously citrusy” and included on the page as an excellent pre-beach primer. In the August issue of Marie Claire our celeb fan base was duly noted with a picture of the gorgeous Mary Kate Olsen (we like to think that we help to keep her locks in their pristine condition as she adores our **Groovy Locks shampoo**) and a recommendation for readers to try the **Peace Love Nature Baby face moisturiser**. Of course we don't like to blow our own trumpets too often (we'll leave that to our loyal fans!) but if you check out the website [www.nature-girl.com](http://www.nature-girl.com), click onto the 'Press' section and you'll be able to see examples of the great coverage we have received.

If you've yet to try one of our wonderful face masks then we recommend you do so – okay so we may be a little biased but personally we can't think of anything better than smothering our faces in something that not only promises to leave your complexion soft, smooth and glowing, but is also packed full of lovely, natural ingredients. There's not a chemical in sight which can only be good news for your skin. The beautiful Donna Air loves the products and, being a fan of all things organic, we're sure it's our effective natural formulations that won her over! And, because we know our customers come in all shapes and sizes we've introduced four masks to suit different skin types and needs.

Those in possession of normal to dry skin are going to love the rich creaminess of **I Am Plant** – a nutrient-rich, exfoliating mask that will restore skin to its former loveliness with a potent blend of oatmeal, wildcrafted ginseng extract and oils of jojoba seed and sweet almond. If a slightly oily complexion is the bane of your life green queens will be delighted to try **I Am Green** – with cinnamon extract and tea tree oil it helps to detoxify and regulate the skin to restore it to its true beauty. For a spot of regeneration add **I Am Flower** to your shopping cart – with a mix of wildcrafted linden blossom oil, shea butter and sea algae extract it helps to gently and effectively remove dry, flaky skin to reveal a glowing complexion. And finally, **I Am Earth** is the perfect antidote to a less than saintly lifestyle – with extracts of French green clay, lavender flower and tea tree is will cleanse and purify the skin to perfection.

The latest place to stock our range is Hair by Nature in Denmark – who sold out of its first order in just a matter of days so popular were the products! And in the US we've also added Spring in San Francisco, B on Wickenden in Rhode Island and Ageless Remedies of Athens in Georgia to our ever expanding list of retailers. For a full list of our stockists and to find somewhere in your country or area log on to [www.nature-girl.com](http://www.nature-girl.com).
